

BACHELOR OF ARTS (B.A.)

(Under-Graduate Academic Degree)

Bachelor of Arts Degree or B.A. Degree is an Undergraduate Academic Degree awarded for a course or program usually in a branch of the Liberal Arts, the Sciences, or both. It is popularly known as B.A. which is an abbreviated form of the Bachelor of Arts.

In India, the duration of Bachelor of Arts Degree spans over a period of 3 years. Arts students have the option to choose between major and minor in many subject areas. The students go through a well-defined study program for their all-round development.

It is generally considered the easiest stream according to the larger populace and generally looked down upon as compared to Science and Engineering Streams. The reason behind this is that a person who graduates in Arts holds a degree in a general non-scientific subject area. But Arts Degree's worth can be gauged from the fact that it offers more avenues of employment opportunities than any other stream. This is primarily because students seeking Engineering and Science are limited to their respective fields whereas students pursuing Arts are not limited to their specific fields, their scope of specialisation is vast.

The College offers Bachelor of Arts Degree as a full-time Degree Course as designed by the University of Mumbai from time-to-time.

SN	Class	Subjects Offered in Our College	Course Info	Total Subjects 2 Semesters Per Year
